How you benefit using cluetec Audit

VDA, ISO, IATF, TISAX or ESG – the number of standards is growing and so is the amount of documentation required. Those who continue to work manually or rely on individual solutions risk errors, delays and quality losses.

cluetec Audit provides a remedy: The cloud-based software supports common standards and bundles all audit processes centrally on one platform. Fully documented, analyzed directly and linked to measures. cluetec Audit for scalable audit management reduces IT costs and is easy to integrate.

- **Manage all audits centrally**
  Secure, compliant and traceable
- **Reduce IT costs**
  Cloud-based operation and simple integration
- **Optimize processes**
  Up to 80 % less effort in the entire audit process
